Item 7.01 Regulation FD Disclosure.

On February 9, 2015, PDL BioPharma, Inc. (the Company) will make a presentation at, and participate in conferences with investors and analysts during, the 2015 BIO CEO & Investor Conference in New York, New York. A copy of the Company's presentation materials has been posted to the Company's website and is attached hereto as Exhibit 99.1.

Limitation of Incorporation by Reference

In accordance with General Instruction B.2. of Form 8-K, this information, including the Exhibit, is furnished pursuant to Item 7.01 and shall not be deemed to be "filed" for the purpose of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section. The information in this Item 7.01 of this Current Report on Form 8-K will not be deemed an admission as to the materiality of any information that is required to be disclosed solely by Regulation FD.

Cautionary Statements

This filing and the presentation include "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Important factors that could impair the Company's royalty assets or business are disclosed in the "Risk Factors" contained in the Company's 2013 Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 3, 2014, as updated by subsequent periodic filings. All forward-looking statements are expressly qualified in their entirety by such factors. We do not undertake any duty to update any forward-looking statement except as required by law.

Item 9.01 Financial Statements and Exhibits.

FORWARD LOOKING STATEMENTS

This presentation contains forward-looking statements, including PDL's expectations with respect to its future royalty revenues, expenses, net income, and cash provided by operating activities. Each of these forward-looking statements involves risks and uncertainties. Actual results may differ materially from those, express or implied, in these forward-looking statements. Factors that may cause differences between current expectations and actual results include, but are not limited to, the following:

- The expected rate of growth in royalty-bearing product sales by PDL's existing licensees;
- The ability of PDL's licensees to receive regulatory approvals to market and launch new royalty-bearing products and whether such products, if launched, will be commercially successful;
- The productivity of acquired income generating assets may not fulfill our revenue forecasts and, if secured by collateral, we may be under secured and unable to recuperate our capital expenditures in the transaction;
- Changes in any of the assumptions on which PDL's projected revenues are based;
- Changes in foreign currency rates;
- Positive or negative results in PDL's attempt to acquire income generating assets;
- The outcome of litigation or disputes; and
- The failure of licensees to comply with existing license agreements, including any failure to pay royalties due.

Other factors that may cause PDL's actual results to differ materially from those expressed or implied in the forward-looking statements in this presentation are discussed in PDL's filings with the SEC, including the "Risk Factors" sections of its annual and quarterly reports filed with the SEC. Copies of PDL's filings with the SEC may be obtained at the "Investors" section of PDL's website at www.pdl.com. PDL expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in PDL's expectations with regard thereto or any change in events, conditions or circumstances on which any such statements are based for any reason, except as required by law, even as new information becomes available or other events occur in the future. All forward-looking statements in this presentation are qualified in their entirety by this cautionary statement.

PDL BioPharma

RECENT DEVELOPMENTS

ROYALTY ACQUISITION

University of Michigan

- On November 6, 2014, PDL acquired 75% of the University of Michigan's royalty interest in Cerdelga until the expiration of the licensed patents in return for $65.6 million.
- First royalties to PDL expected in Q1 2015.
- The license agreement is between the University of Michigan and Genzyme, a Sanofi Company, who developed and commercializes Cerdelga.

Royalty Acquisition

UNIVERSITY OF MICHIGAN

$65,600,000
November 2014

Cerdelga

- Cerdelga is an approved oral drug for adult patients with Gaucher Disease type 1, a rare and genetic condition caused by the deficiency of an enzyme, glucocerebrosidase.
- Cerdelga was approved in the US on August 19, 2014 and in the EU on January 22, 2015.

Current Treatment of Gaucher Disease

- Genzyme's Cerezyme® is the current standard of care for patients with Gaucher Disease type 1.
- It is administered through intravenous infusion.
- Cerdelga will offer an oral treatment alternative to such patients.

PDL BioPharma

OTHER DEVELOPMENTS

Durata

- In November 2013, PDL agreed to provide up to $70 million in senior secured funding to Durata.
- $25 million was funded at closing and $15 million on FDA approval of Dalvance in May 23, 2014.
- 5-year term with 14% coupon on first tranche that reduced to 12.75% on funding of second tranche.

Senior Secured Financing

DURATA THERAPEUTICS

$70,000,000
October 2013

- On October 6, 2014, Actavis announced that it will purchase Durata for $675 million ($23.00 per share in cash, plus CVRs of up to an additional $5.00).
- On November 17, 2014, Durata repaid the loan in full, including accrued interest, prepayment penalties and change of control fees.

AxoGen

- In October 2012, PDL provided $20.8 million to AxoGen in exchange for royalties on AxoGen revenues.
- On November 13, 2014, AxoGen paid $30.3 million to PDL, which constitutes full payment, and PDL bought $1.75 million worth of AxoGen stock at $2.72 per share.

Royalty Transaction/
Senior Secured Financing

AxoGen

$20,800,000
October 2012

PDL BioPharma

OTHER DEVELOPMENTS (2)

Direct Flow Medical

- In November 2013, PDL agreed to provide up to $50 million in senior secured funding to Direct Flow Medical, a transcatheter heart valve innovator.
- $35 million was funded at close.
- PDL accelerated and funded an additional $15 million second tranche on November 10, 2014.
- 15.5% interest rate on first tranche reduced to 13.5% on all amounts after draw of second tranche.

PDL BioPharma

QUEEN et al. PATENTS – ROYALTY RATES

- **Tysabri, Actemra, Entyvio, and Gazyva**
  - Flat, low single-digit royalty.
  - Royalties owed on Actemra sales through 1Q15 (on sales in 4Q14).
- **Genentech Products (Avastin, Herceptin, Lucentis,[1] Xolair, Perjeta and Kadcyla)**
  - 2.125% on all Genentech Products regardless of site of manufacture or sale effective as of August 15, 2013.
  - Royalties on Avastin, Herceptin, Xolair, Perjeta and Kadcyla through 1Q16 (on sales through 4Q15).
  - Royalties owed on ex-US Lucentis sales through 1Q15 (on sales in 4Q14).
  - Compares to blended global royalty rate on Genentech Products in 2013 of 1.9% under previous tiered and bifurcated (US made or sold vs. ex-US made and sold) royalty schedule.

1. As part of a settlement with Novartis, which commercializes Lucentis outside US, PDL agreed to pay to Novartis certain amounts based on net sales of Lucentis made by Novartis during calendar year 2011 and beyond. The amounts to be paid are less than we receive in royalties on such sales and we do not currently expect such amount to materially impact our total annual revenues in 2014.

OTHER INCOME GENERATING ASSETS

Company	Structure	Technology	Deal Summary
University of Michigan	Royalty	Cerdelga is an approved oral drug in US and EU for adult patients with Gaucher Disease type 1, a rare and genetic condition caused by the deficiency of an enzyme, glucocerebrosidase.	On November 6, 2014, PDL acquired 75% of the University of Michigan's royalty interest in Cerdelga until the expiration of the licensed patents in return for $65.6 million.
Viscogliosi Bros., LLC	Royalty	PMA-approved spinal implant commercialized by Paradigm Spine.	Right to receive royalties on sales of spinal implant in exchange for cash payment of $15.5 million until PDL receives an amount equal to 2.3 times the cash advanced after which all royalties revert to Viscogliosi Brothers.
kaléo	Debt	Commercialization of Auvi-Q for delivery of epinephrine to treat severe allergic reactions that can be life-threatening i.e., anaphylaxis, and EVZIO for delivery of naloxone for the treatment of patients who overdose on opioids.	$150 million worth of Notes backed by 100% of royalties of sales of Auvi-Q by Sanofi and 10% of net sales of EVZIO by kaleo. The Notes pay interest at 13% and, while final maturity is March 2029, PDL anticipates that the notes will be repaid in 2020.
Paradigm Spine	Debt	Commercialization of coflex for treatment of spinal conditions.	An initial $50 million and additional $25 million to be funded in two tranches upon the achievement of specified revenue and other milestones on or prior to December 31, 2014. Interest rate is 13%. Loans mature on August 14, 2019.
Direct Flow Medical, Inc.	Debt	Commercialization of its transcatheter aortic valve system to treat aortic stenosis with minimal risk of aortic regurgitation, a significant clinical complication with current transcatheter aortic heart valve replacement systems.	An initial $35 million was provided at the close of the transaction and the $15 million second tranche was funded in November 2014. The interest rate on tranche 1 was 15.5% which declined to 13.5% on all amounts after the second tranche was funded. The loans mature on November 5, 2018.

PDL BioPharma

OTHER INCOME GENERATING ASSETS

Company	Structure	Technology	Deal Summary
Depomed	Royalty	Five drugs for type 2 diabetes: Glumetza®, Janumet® XR, Invokana®, Boehringer Ingelheim's fixed-dose combinations of drugs and extended-release metformin, LG Life Sciences' and Valeant Pharmaceuticals' extended-release metformin in Korea and Canada.	Rights to receive royalties and milestones payable on sales of Type 2 diabetes products licensed by Depomed in exchange for a $240.5 million cash payment until PDL receives payments equal to $481 million after which all payments received will be shared evenly between PDL and Depomed. The agreement terminates on the later of October 2024 or when royalty payments are no longer due.
LENSAR	Debt	Commercialization of its femtosecond laser for cataract treatment which uses 3-D imaging and liquid interface to allow more accurate corneal incisions with more precise and uniform depth of incision and to prevent accidental incision.	An initial $40 million was provided at close of the transaction. The interest rate on the loans is 15.5% and they mature on October 1, 2018.
AVINGER	Hybrid royalty/debt	Commercialization of Ocelot and Lightbox next-generation image guided catheter devices used to open totally occluded arteries in the legs, and development of Pantheris, next-generation image guided atherectomy device.	$20 million in cash funded to Avinger on closing. In exchange, PDL will receive interest on the principal amount outstanding and a low, single-digit royalty on Avinger's revenues from the sale of Avinger's suite of products through April 2018. Avinger recently went public raising $65 million in its IPO with the potential for more if the greenshoe is exercised.
Wellstat Diagnostics, LLC	Hybrid royalty/debt	Development of point-of-care diagnostic system using electrochemical luminescence and assays.	$44 million hybrid debt-royalty structure royalty whereby Wellstat is required to repay outstanding principal and a specific target internal rate of return at maturity or upon the occurrence of certain key events. Target internal rates of return depend on whether date of repayment is on or after December 31, 2014, and is higher after this date. Upon commercialization of Wellstat's diagnostic systems or assay, PDL will receive a low double digit royalty on Wellstat Diagnostics' net revenues. Term can be as long as 2021.

OTHER INCOME GENERATING ASSETS

Company	Structure	Technology	Deal Summary
Concluded Deals			
DURATA THERAPEUTICS	Debt	Development and commercialization of a novel intravenous antibiotic, dalbavancin which is dosed twice for 30 minutes, initially and on day 8.	An initial $25 million was provided at the close of the transaction. The agreement provided up to $45 million in additional funds to Durata, $15 million which was funded in May 2014 upon regulatory approval of dalbavancin, and the remaining $30 million was to be funded within nine months after regulatory approval of dalbavancin at Durata's election. The interest rate on tranche 1 was 14% which declined to 12.75% on all amounts after the second tranche was funded. On November 17, 2014, Durata repaid the $40 million outstanding loan balance in full, plus accrued interest, and prepayment penalties and change of control fees.
AxoGen	Hybrid royalty/debt	Commercialization of Avance, nerve allograft to bridge severed nerves, and AxoGuard devices, to connect or protect the reconnection of severed nerves.	$20.8 million hybrid debt-royalty structure with midterm through later periods payments of greater of minimum payment or royalty. Royalty rate was 9.95%. Eight year term with PDL put at end of year 4 and AxoGen call in years 5 through 8. On November 12, 2014, AxoGen paid $30.3 million to PDL which constituted the carrying value and full payment under the terms of the financing agreement, and PDL bought $1.75 million worth of AxoGen stock.
MERUS LABS	Debt	Commercialization of Enablex, a treatment for overactive bladder, and Vancocin, an intravenous antibiotic.	$55 million credit agreement with Merus in connection with Merus' acquisition of Enablex from Novartis. In September 2013 Merus refinanced its debt obligation subject to a pre-payment penalty.
